The professional practice of LASALLE’s teaching staff is one of its most important assets. Our unique College environment is formed by a faculty of accomplished artists and educators from around the world, many of whom are renowned experts in their areas, actively involved in exhibitions, performances and research. The incorporation of their respective expertise in programme delivery closely relates teaching and learning to a broad range of theoretical and intellectual concerns in contemporary arts and design practice.

Students are constantly exposed to first-hand experience in current research practices, leading to the acquiring of a wide set of knowledge and skills by the time they graduate. These skills enable them to successfully adjust to the multi-faceted demands of the creative industries.

Students are mentored by an international and Singaporean faculty who spans a breadth of creative professions in art, design, media and performance. From artists, actors, composers, dancers, designers, directors, curators, multi- and interdisciplinary artists to many more, they collectively represent an international career portfolio with some of the most forward looking institutions and organisations in Singapore and globally.

In 2015, LASALLE became the first home-grown Singaporean institution to be awarded the coveted EduTrust Star by the Committee for Private Education, the highest accolade of quality for a private education institution in Singapore. The College was awarded a second consecutive EduTrust Star in 2019, affirming its ongoing commitment to quality education.

Goldsmiths, University of London, a partner institution of LASALLE, is renowned for having a creative and innovative approach to the teaching of and research in the arts. Goldsmiths has approved LASALLE as an appropriate tertiary institution in Singapore to offer degree programmes leading to Goldsmiths validated awards.

The Winstedt Campus supports continuous innovation and excellence by supporting studio-based work and research. The space is designed as a comprehensive creative centre that visual arts students – in particular those involved in studio-based modules and levels – can utilise ample and appropriate spaces to develop and complete their semester projects, especially when some of these works might be larger in scale and ambition.
THE WIN-WIN FACTOR

FINE ARTS
FIND YOUR UNIQUE VOICE THAT REFLECTS CREATIVE INQUIRY, COMMITMENT AND SELF-DISCIPLINE.
OVERVIEW

The process of art making demands the acquisition and development of strong knowledge and skills in materials, accompanied by a reflexive understanding of this knowledge that is then continually tested and extended through relevant practical application.

Steered by this belief, the teaching and learning approach for the programme is grounded primarily on a practice-based methodology, with an emphasis on the development of your creative processes and discoveries that are honed by community engagement projects and a strong understanding in art history and ideas. You will be trained and equipped with the specific skills, techniques, aesthetics and knowledge of historical issues associated with your discipline.

The programme will provide you with the exposure to various fine arts media such as painting, printmaking, sculpture, graphic novel and lens-based art. You will be given the opportunity to present your final project in your specialised area through a self-proposed brief. The programme also emphasises an interdisciplinary approach to learning, which allows you to discover and establish cross-discipline methodologies in the development of your works. As it is the preliminary stage of your artistic journey, we consider this programme as crucial to allow you to search for a unique creative voice and understand the use of materials and art processes confidently so that you can hone these skills at a higher level.

INTERIOR DESIGN

CREATE EXPERIENTIAL AND NEW SPATIAL ENVIRONMENTS THAT CHALLENGE CONVENTION AND TRANSCEND TRENDS.

Admission: Faculty of Design
School of Spatial & Product Design

DURATION MODE

3 years Full-time

CAREER PATHS

Interior Designer or Design Consultant, Design Educator, Furniture Designer, Exhibition Designer or Stage Designer.
OVERVIEW

Interior design is defined as the act of creating environments within and around existing spaces and structures. As a profession, it covers the design and planning of an immense range of places including, but not limited to domestic, leisure, retail, office, healthcare, hospitality, and institutional spaces. It is also closely interwoven with various design disciplines like architecture and industrial design.

Interior design is not a course on interior decoration, nor is it the pursuit of architecture under the guise of interior design. You will focus on the creation of experiential environments from the perspective of users, and the discovery of new typologies of space. You will look to the conceptual to challenge convention, habits and trends, and seek to explore the controversial, unexpected, and emergent, with the onus on critical design thinking and intense involvement in the design process.

The curriculum is based on a number of key design principles. Design processes and conceptual thinking methodologies are explored in a practice-based studio environment and supported with core discipline skills that involve a critical understanding of design history and contemporary theory, technical knowledge on building materials and technology, traditional drafting and modelling techniques, as well as the latest in computer-aided drawing and visualisation. Through the course of study, you will be exposed to the demands of the profession with a continuous engagement in local and international design competitions, live project and exhibitions.

The objective is to create an ecosystem of significant designers who display a restless curiosity and make informed design decisions.

CAREER PATHS

Product Designer, Design Manager/Director, Industrial Designer, Design and Technology Educator, Product Design Researcher, Digital Asset Designer, Trends and Futures Specialist, Furniture Designer or Lighting Designer, Packaging Designer, Events/Interior Designer, Model and Visualisation Specialist or Product Marketing Specialist.
OVERVIEW

Product design is about people, process, method and meaning. The programme moves away from the traditional notions of the practice where product/industrial designers are seen as form-givers and crafts people of the highest order in Asia, to a realm where the product designer creates from a keen awareness of social, cultural, economic and environmental sensitivities, with a key focus on human behaviour and user experience.

The pedagogy engages design practice through contextual underpinnings linking theory to practice: an awareness of the issues pertinent to contemporary design is emphasised and reflected incrementally through various levels of learning.

It is an immersive programme of thinking through making in a studio-based environment. This is realised through a strong emphasis on user research, technical understanding and criticality. You will be challenged to work within or even define design projects briefs with diverse starting points to conceive innovative products, services and research across contexts and cultures.

This critical experimentation is tempered with a good knowledge and understanding of significant developments in design history and theory as well as core discipline knowledge in materials science, manufacturing technology and mass production. You will also be trained to a high level of proficiency in 2D/3D manual and digital, integral to the reflexive practicing designer.

REFUND POLICY

REFUND FOR WITHDRAWAL DUE TO NON-DELIVERY OF COURSE

The Private Education Institution (PEI) will notify the Student within three (3) working days upon knowledge of any of the following:

(i) It does not commence the Course on the Course Commencement Date;
(ii) It terminates the Course before the Course Commencement Date;
(iii) It does not complete the Course by the Course Completion Date;
(iv) It terminates the Course before the Course Completion Date;
(v) It has not ensured that the Student meets the course entry or matriculation requirement as set by the organisation stated in Schedule A within any stipulated timeline set by CPE; or
(vi) The Student’s Pass application is rejected by Immigration and Checkpoints Authority (ICA).

The Student should be informed in writing of alternative study arrangements (if any), and also be entitled to a refund of the entire Course Fees and Miscellaneous Fees already paid should the Student decide to withdraw, within seven (7) working days of the above notice.

REFUND FOR WITHDRAWAL DUE TO OTHER REASONS

If the Student withdraws from the Course for any reason other than those stated above, the PEI will, within seven (7) working days of receiving the Student’s written notice of withdrawal, refund to the Student an amount based on the table in Schedule D.

REFUND DURING COOLING-OFF PERIOD

The PEI will provide the Student with a cooling-off period of seven (7) working days after the date that the Contract has been signed by both parties.

The Student will be refunded the highest percentage (stated in Schedule D) of the fees already paid if the Student submits a written notice of withdrawal to the PEI within the cooling-off period, regardless of whether the Student has started the course or not.

PROGRAMME TRANSFER

Transferring from a programme to another is deemed as a withdrawal from the current programme.

New students who have accepted an offer in a programme but wish to change programme prior to the programme commencement date are required to notify the College and re-apply for admission into the new programme.

FEE PROTECTION SCHEME (FPS)

FPS serves to protect students’ fees in the event a PEI is unable to continue operations due to insolvency, and/or regulatory closure. The FPS also protects students when the PEI fails to pay penalties or refund fees to the students arising from judgments made against it by the Singapore courts.

As an EduTrust-certified PEI, LASALLE is required to adopt the FPS to ensure full protection to all fees paid by their students. Therefore, the FPS is compulsory for all local and international students who are taking Bachelor of Arts (Hons), Master of Arts and English programmes at LASALLE. Diploma programmes offered by LASALLE are funded by MOE and therefore all fees are exempted from the FPS under the EduTrust requirements of the CPE. For more information on FPS, please refer to www.lasalle.edu.sg.
