Asia's leading contemporary arts and design institution

LASALLE College of the Arts is the highest ranked specialist arts institution in Southeast Asia for Performing Arts, and joint top for Art & Design (QS World University Rankings by Subject 2025).

The College offers 36 Diploma, BA (Hons) and postgraduate programmes across the full spectrum of arts and design disciplines. A nurturing, interdisciplinary learning environment inspires the next generation of forward-looking and globally engaged creative leaders, who are mentored by a faculty of award-winning artists, designers, educators and researchers. LASALLE's tradition of practice-led research sets the College apart as an international centre of excellence.

LASALLE is a non-profit private educational institution. The College receives tuition grant support from Singapore's Ministry of Education.

Namjot Kaur

Bachelor of Arts (Honours) Product Design,
First Class Honours
School of Spatial & Product Design
Faculty of Design

Namjot Kaur is a Singapore-based product designer with a passion for creating solutions that serve communities and spark real-world impact. A graduate of LASALLE College of the Arts, her work blends thoughtful design with her interest in aviation and flying.

Namjot's final-year project *ALBATROSS* is a pioneering rescue glider designed with support from aerospace engineers to deliver emergency aid to disaster-hit regions in Indonesia. The project was recognised internationally, earning her the prestigious Red Dot Award for Design Concept. She also co-designed *TITHONUS*, an electric race car concept in collaboration with Singapore University of Technology and Design, which marked the beginning of her journey into automotive design. Namjot also created *Tera*, a sustainable, self-watering plant system that led to her being selected as one of just 14 Singaporean designers to exhibit at Milan Design Week.

Namjot's approach to design is deeply collaborative, shaped by her experience working alongside peers, communities and cross-disciplinary teams. She believes good design uplifts others, solves root-level problems, and is most powerful when it serves those who are often overlooked.
